AV Software Developer Apprentice at Dev Bootcamp in San Francisco, CA. Completed 19-week 1000+ hour intensive web development program focusing on skill such as Ruby on Rails, Object-Oriented Javascript, Test-Driven Development, Agile Development and more.

Customer Service Rep   **Lowe's Companies Inc.**   **March '14 – July '15**

Lowe's Customer Service Representative Union City, CA. Assisted customers in finding products and solutions that fit their needs and budgets.

TECHNICAL EXPERIENCE

Projects

- **Ye Olde Online Shoppe** (Oct. 2015). Created an e-commerce site in Ruby on Rails. Implemented a shopping cart, checkout, user profiles and payment integration with Stripe. Utilized pair programming, TDD, and Agile methodologies.

- **PickUp** (Nov. 2015). Design Lead at PickUp. As a team, created an intuitive way to organize small sporting events (pickup games) on the go. Goals for this platform were for like-minded users to connect, exercise, and enrich their lives through friendly competition. Implemented in Ruby on Rails, using Javascript, HTML, CSS, and integrated Google Maps API.

- **Prelude** (In progress) This app will allow you to create and share short snippets of audio from music or podcasts. Goals: Utilize MEAN stack - One page web app – HTML/CSS from scratch (only using a grid)
